THE JOHN BAKER BRANCH
OF
THE CONRAD (BECKER) BAKER FAMILY

1606658

This pamphlet of record is the family record of the JOHN BAKER family branch of the Conrad Becker family of York County, Pennsylvania.

The record will be as nearly complete as is possible. The addresses given are the latest addresses at hand. The dates given are the dates furnished by the respective branches of the family. The entire data is complete and up-to-date so far as we have been able to gather it together.

The ancestor of this family who first came to the United States was known as Conrad Becker or Coonradt Baecker.

The name in its German spelling was Coonradt Baecker, with two dots over the ae. While the family lived in York County it was known as the Conrad Becker family. Just when the different children began to be known by the name of Baker is not known - however, we do know that long before the John Baker branch left Pennsylvania the name had taken on the American pronunciation of Baker instead of Becker.

Our research and investigation has brought out the following story of this ancestor and his family:

Coonradt Baecker, along with two brothers, arrived in the United States on the boat, Snow Betsie, in the port of Philadelphia on August 27th, 1739. According to the requirements governing the immigrants to the United States at that time, this ancestor was born about the year 1720 in Germany and was one of the so-called Palatin Immigrants. The Palatins were a group of Germans who were seeking religious freedom.

We have been unable to trace his whereabouts during the period from 1739 to approximately 1753. It was approximately 1753 that he was married and in all probability in York County, Pennsylvania.

Conrad Becker married Catrena Lamhardt, whose parents lived in York County, about the year 1753. It is impossible to learn anything definite other than this.

Catrena Lamhardt was the daughter of Matthias and Anneecia Lamhardt. The name Lamhardt was written Lambert on the Will of Matthias Lamhardt by the Recorder of York County who recorded the will.

To the union of Conrad and Catherine Lambert Becker was born seventeen children. We know nothing of any of these children or their families except two and those two are the twelfth child, Conrad, who was the grandfather of the Conrad Baker who was the Governor of Indiana during the years 1867 and 1868, and the fifteenth child, John, who was the father and head of the John Baker branch concerning which this record is being written.

For your pleasure and interest we will first give you a copy of the MATTHIAS LAMBARD WILL and then a copy of the CONRAD BECKLER WILL. After reading and studying these two documents if you are still interested you will find a study of the division of lands in York County in these early years very interesting and you will also understand why we have built up the history of this family in the way we have.

Along with the will of Conrad Becker was posted an inventory of his belongings totaling about two hundred and thirty-five pounds not including the land mentioned in the will. The photostatic copy of this will and the inventory and will of Matthias Lambard are in the hands of the family recorder and accessible at any time that anyone would care to see them. With the outline of the Conrad Becker family as given in these two wills we will give the record of the family as handed to us by the historical society of York County, Pennsylvania, and from there on will give the record of the John Baker family as it has been assembled by the family recorder. We trust that this information will be pleasing and valuable to all that are interested in it.

REPORT OF THE HISTORICAL SOCIETY OF YORK COUNTY
BY HENRY JAMES YOUNG

"Conrad Becker of York County, Pennsylvania, Overseer of the Poor, Dover Township, 1758; Overseer of the Poor, Manchester Township, 1773. Private in the Second Class, Seventh (Captain Yost Harbaugh's) Company, Second Battalion, York County Militia according to a return dated April 17, 1778, and another, undated, of about the same period. He was later one of a party of militia who apprehended British deserters prisoners and took them to Camp Security. Member of the Sixth Class of Inhabitants of Manchester Township, classified under an Act of Assembly passed in 1780, entitled "An Act to complete the Quota of the Federal Army"; each class was "required to provide, in fifteen Days from this Date (January 30, 1781), one able-bodied Recruit for the Continental Army, to serve during the war", under penalty of a fine of 15 pounds specie; there are no records to

"show whether this class satisfied this requisition or not. In the Census of 1783 he is ascribed 225 acres of land, 3 horses, 4 cattle, 8 sheep, 1 still, 1 house, 1 barn, 12 inhabitants; valuation 330 pounds; tax five pounds. He signed his will on Dec. 19, 1794, and it was probated on Jan. 27th, 1795, so he died at some time between those dates.

"His wife, Maria Catharina, was a daughter of Matthias Lambert (died 1757) of Manchester Township and Anne Rosina his wife. Maria Catharina Becker apparently died in 1804, since bond was filed by her administrators on March 12th of that year.

"Their issue were:

1. Henry
2. Eva, wife of Jacob Hoffman
3. Magdalena, wife of Valentine Kohler
4. Matthias, of Newberry Township. His wife's name was Elizabeth (Ferry?). His will, dated Dec. 12th, 1804, was probated Feb. 24th, 1808. Mathias and Elizabeth had issue Conrad (born Sept. 1, 1793), Lydia (born Nov. 12, 1799), Elizabeth (born Aug. 21, 1802) and perhaps others.
5. (Anna) Margaret, baptized by the Rev. Jacob Lischy on Dec. 28, 1755.
6. (Maria) Barbara, baptized at Quickel's Church about 1766. She married Charles Mitman, "one of the first Revolutionary soldiers in this county," who died on Oct. 29, 1829.
7. Catharina (born Feb. 7, 1768, died Sept. 12, 1806) She was the wife of Christian Mohr, and is buried at Quickel's Church.
8. (Maria) Elizabeth, (born June 8, 1769,) baptized June 11. She was the wife of George Richholtz.
9. Anna (Barbara), (born Feb. 20, 1771,) baptized March 17.
10. Margaret (Elizabeth), (born March 5, 1773) baptized March 21, died Sept. 1, 1833, and is buried in Saint Matthew's Lutheran Cemetery, Hanover, Pennsylvania. She married Andrew Kohler, who died April 3, 1825, at the age of 64 years, 5 months, and 5 days. He is buried beside her.
11. (John) Philip, (born Oct. 17, 1775) baptized Nov. 19.
12. Conrad, (born Sept. 9, 1777) baptized Dec. 28.
13. (John) Jacob, (born Nov. 7, 1779) baptized Dec. 12.
14. (Anna) Mary, (born Jan. 13, 1782) baptized May 3.
15. John, (born Dec. 17, 1785) baptized December 25.
16. (John) Peter, (born March 14, 1788) baptized April 7.
17. Samuel, (born Jan. 15, 1792) baptized Feb. 26. He is buried at Quickel's Church.

"Notes:

"The chronological order of the children is uncertain. The duplication of names is now confusing, but was then customary among Germans.

"The listed dates are from the vital records of Quickel's Church, Conewago Township, translated by George P. Seiffert. The private Record of Jacob Lischy, V.D.M., 1743-1789, ms., The Historical Society of the Reformed Church, Lancaster, Pa."

With the foregoing transcripts of records and the aroused interest in the Baker Family from these historical facts we will now proceed to list all the descendants of the fifteenth child, John Becker or Baker. This is as nearly complete a list as has been possible to make and the dates are dates given to us by different members of the family from their Family Bibles and records they individually possessed.

You will find a number preceding each name. These numbers will be used for reference purposes together with the page they will be found on.

1. The first part of the paper is devoted to a general
discussion of the problem. It is shown that the
problem is of great importance and that it has
not been completely solved. The author then
presents a new method for solving the problem.
This method is based on the use of the
Fourier transform. It is shown that this
method is very effective and that it can be
applied to a wide range of problems. The
author then gives some examples of the
application of this method. It is shown that
the method can be used to solve problems
in the theory of heat conduction, in the
theory of fluid mechanics, and in the
theory of electrical circuits. The author
concludes by stating that the method is
very useful and that it should be used
in the future.
